Dissecting Specimen Pins

Securely hold specimen with pins. Large quantity pack-
age of 100 pins. Size 1-1/4" (3.81 cm).

Product No. AD010

8" Cavity Mirror with Handle

Reverse cavity viewing for limited dissection areas such as oral, pediatric or small animal dissection specimens. Reduces finger probing for infectious cases.

Product No. AD005

11" Body Fluid Scoop

Extra long angled handle allows easy access to abdominal and chest cavity. The large scoop provides ample capacity for removing internal fluid.

Product No. AD002
